ABOUT ME

Growing up in the sunny town of Brighton you would think I would have a career in an outdoorsy area such as sport..nope. Somehow I found myself sitting on a computer chair enjoying making game art so much that pursuing it as a career would be simply a dream come true.

After graduating from Hertfordshire University with a 1:1 i landed myself an environment job at Splash Damage making a remake of my all time favourite game 'Gears of War: Ultimate Edition'. After shipping Ultimate Edition i worked on Gears of War 4 + DLC. I am currently still at the very talented studio Splash Damage making the best art i have ever made.

EDUCATION

2011 - 2014 University of Hertfordshire
- First Degree 1:1 Game Art

HONORS & AWARDS

🏆 Honourable Mention: 30 under 30

Splash Damage recommended me to win the award for '30 under 30' an award that is in association with OPM that celebrates the future of games development.

🏆 Best playable game' - Whispers of Rei
University of Hertfordshire

While attending University of Hertfordshire myself and my group won 'Best playable game' which was a Japanese horror game that worked on the occlus rift.
