Experience

Freelance- February '15- Present

Working on a variety of freelance projects for mobile game studios, life sciences, production houses, board game developers, and multimedia/animation studios.

Character Designer/Illustrator, Lumba, Inc., SF, CA — March '13- February '15

Designed 40 characters between two titles, as well as digitally sculpted the high res assets, and painted final UI Illustrations. Illustrated both intro splash screens, over 75 full color comic panels, and all marketing illustrations.

Instructor, Academy of Art University, SF, CA — September '13- December '14

Created a brand new class/curriculum teaching digital sculpting to Illustrators and Concept Artists. The emphasis is on learning ZBrush and how to integrate it into their illustration/concept art workflows.

Creative Director/Senior Concept Artist, Viscira, SF, CA — June '10-June '14

Conceptualized projects from script to storyboards and concept art to final animation. Interacted with clients to understand, interpret, and execute their needs and goals. Effectively managed a team of artists, designers, and animators to complete high quality animations in very aggressive timelines.

Concept Artist, CA Academy of Sciences, SF, CA — February '10- May '10

Conceptualized and storyboarded 10 minute opening of the planetarium show, "Life: a Cosmic Origin."

Senior Concept Artist, Eveo, SF, CA — March '06- June '10

Concept and storyboard artist for animations and interactive programs/videos.

Education

Academy of Art University, SF, CA — BFA in Illustration (with honors), '05

Skills

Concept Art, Illustration, Digital Sculpting, Creative and Artistic Direction. Photoshop Illustrator, After Effects, Character Animator, ZBrush, Modo, Keyshot, and Painter. Excellent written and verbal communication.
