// Summary

I am a young artist, currently working in the gaming industry. My tasks there include concepting and creating vector based world assets for a browser game, such as buildings, items and characters. This requires me to keep a consistent style, formed by our art team in collaboration. Due to my engagement in voluntary youth work, I am used to working under stress, teamwork, organisation and friendly communication. I am a very proactive person and always eager to learn.

// Objective

My goal is to obtain a position in a creative and positive environment, where I can contribute with my skillset in a rewarding manner and have the opportunity to grow as an artist. I like to be challenged and to have the opportunity to broaden my attainments for the benefit of my employer as much as myself.

// Professional Experience

Goodgame Studios

Theodorstraße 42-90, 22761 Hamburg, Germany

// Internship 2D Art (Nov 2013 - Feb 2014)
