Profile I am a 3d artist and concept artist, with a passion for creating characters, monsters, props, worlds and visual stories. I have experience in the video game field and I understand the workflow of making art for real time rendering. My main strength is that I can pick up my magical digital wand and turn ideas into shapes and designs.

Experience

3D Artist, Eyelead Software, Jan 2016 - Oct 2016

- 3D sculpting of ancient Greek statues
- Recreation of ancient Greek temples in 3D models
