Hi, my name is Filipe and I'm an incredibly motivated professional Concept Artist and Illustrator.

I have over 4 years experience in the games industry. I'm creative, passionate, fast learning and easy to work with.

I usually thrive best when given creative freedom, always trying to go beyond my own limitations as an artist and technical professional.

Work Experience

2013

Moonlight - Internship (Part-time)

Administrative and basic Graphic Design related tasks;

2015-16

Creabyte Studios - 2D Artist

Worked on Concept Art, Illustration, Graphic and UI Design for an independent cancelled title;

2016-19

Miniclip - Graphic Artist

As part of the Promotional Art Team, I was tasked to create art content for Marketing Campaigns in the games the company was working on and was also responsible for providing feedback and creating structures and production processes within Agar.io (one of Miniclip's projects).

Worked on Illustration, Concept Art and Graphic Design.

2019-20

Freelance Concept Artist and Illustrator

During 2019, I joined several independent game projects and commissioned my artistic services to other clients;

Independent Game IPs

From June 2019 I also started creating my own game projects, creating Concept Art, doing Project Management, 3D Modeling and Animation and also developing them with Unreal Engine 4's visual scripting.
